Summary

Drawing upon my extensive experience as a Full Stack Developer, I specialize in creating robust and user-friendly web applications. With a strong foundation in **C#** and the **.NET framework**, I excel in both front-end and back-end development. My expertise encompasses **HTML**, **CSS**, **JavaScript**, and modern front-end libraries like **Angular** for crafting engaging user interfaces. On the server side, I'm proficient in developing scalable and efficient solutions using technologies such as **ASP.NET CORE**, **Web APIs**, **MVC**, and **SQL Server**. I have a track record of building and maintaining secure and high-performance applications. My commitment to clean, maintainable code and effective problem-solving abilities ensures the delivery of top-quality results. I place a strong emphasis on collaboration and effective communication to meet project goals.

Soft Skills

- Communication
- Reporting and Analysis
- Time Management
- Analytical Mindset
- Creativity
- Detail Oriented
- Team Player
- Self-Motivation

Technical skills

- HTML
- CSS
- Bootstrap
- TypeScript
- Angular
- C# OOP
- ASP.NET CORE
- ASP.NET MVC
- ASP.NET Web API
- SQL Server
- Postman
- Microsoft Azure
- Jira
- RESTful APIs
- Docker
- CI/Cd
- WordPress

Experience

Pixel Professional Solutions, Amman – Jordan   **Full Time**
Full Stack Developer   **10 / 2023 – Present**
- Worked closely with cross-functional teams to conceptualize, create, develop, and launch robust software solutions. Designed front-end website architecture and developed back-end applications to ensure optimal performance.
- Maintained application responsiveness and upheld code quality throughout the software development lifecycle.
- Administered servers, email systems, and web hosting to guarantee high performance and reliability.
- Oversaw technical support for various systems, websites, and mobile applications.
- Conducted training sessions for interns and university students, equipping them with the skills needed for career success.
- Produced monthly reports assessing system and project readiness, tracking performance metrics, and recommending improvements.

Tecno Tech, Amman – Jordan   **Full Time**
Web Developer   **04 / 2023 – 10/2023**
- Designed the front-end website architecture and implemented the development of back-end applications.
- Performed comprehensive performance optimizations to ensure software efficiency and responsiveness.
- Maintained and updated existing web applications, adding new features and improving performance based on user feedback.
- Built complete, end-to-end websites.

Dardos Technology, Amman – Jordan   **Full Time**
Full-Stack Web Developer   **11 / 2022 – 03 / 2023**
- Created and implemented visually appealing, user-friendly designs using HTML, CSS, and JavaScript.
- Responsible for designing and developing server-side logic that runs web applications using server-side programming languages such as PHP.
- Collaborated with designers and developers to translate wireframes and mockups into fully functional websites.

Galaxy Organization, Amman – Jordan   **Internship**
Full-Stack Web Developer   **07 / 2021 – 07 / 2022**
- Complete detailed programming and development tasks for front-end public and internal websites and challenging back-end server code.
- Carry out quality assurance tests to discover errors and optimize usability.
- Implemented debugging and troubleshooting processes to maintain code quality and system stability.
- Developed and maintained documentation to support ongoing development and future enhancements.

Courses

- ASP.NET Core Web API - EF   **2023**
- Angular - The Complete Guide   **2023**
- Frontend Development using React   **2023**
- Dot Net Full Stack Foundation   **2023**
- Data Science - Advanced Data Analytics   **2023**
- Full-Stack Web Development   **2022**
- Computer Skills   **2017**

Education

Al-Hussein Bin Talal University, Maan – Jordan   **2019 - 2023**
Bachelor of Computer Science   **GPA of 85.03 (Excellent)**

I am a graduate of the bachelor's degree in computer science from Al-Hussein Bin Talal University. The program provided me with a strong foundation in computer science theory and practical skills in programming languages, software engineering, databases, and cybersecurity. AHU's state-of-the-art facilities and technology enhanced my learning experience and prepared me for various careers in the field.

Certifications

- ASP.NET Core Web API – Entity Framework   **Udemy**
- Angular - The Complete Guide   **Udemy**
- Frontend Development using React   **Coursera**
- .Net Full Stack Foundation   **Coursera**
- Data Science - Advanced Data Analytics   **Correlation One**
- Full-Stack Web Development   **Galaxy Organization**
- Computer Skills   **PC.Net Academy**
- General English Level 1 to 8 and toefl preparation   **PC.Net Academy**
- Software Testing   **LinkedIn**
- SQL, PL/SQL, C#, OOP, and Python   **Udemy**

Languages

- Arabic   **Native**
- English   **Very Good**
