Amman, Jordan

Experienced Full Stack Developer skilled in C#, .NET, Angular, and SQL Server. I build secure, scalable web applications with clean code and strong problem-solving, focusing on both front-end and back-end development and effective team collaboration.

Work Experience

Full Stack Developer

Oct 2023 - Present

Pixel Professional Solutions | Amman

Led full-stack development efforts for scalable software solutions, working across front-end and back-end stacks using modern technologies to ensure seamless performance.

- Collaborated with cross-functional teams to design and launch robust software applications.
- Developed front-end architectures and efficient back-end logic.
- Ensured responsiveness and high performance throughout SDLC.
- Administered servers, email systems, and web hosting platforms.
- Provided technical support for systems, websites, and mobile apps.
- Trained interns and university students on key development skills.
- Created monthly technical reports to assess performance and suggest improvements.

Web Developer

Apr 2023 - Oct 2023

Tecno Tech | Amman

Focused on designing and maintaining modern, responsive web applications with optimized performance and user experience.

- Designed front-end architecture and implemented back-end solutions.
- Performed deep performance optimizations for efficiency.
- Updated and enhanced existing web applications based on user feedback.
- Built and delivered complete, fully functional websites.

Full-Stack Web Developer

Nov 2022 - Mar 2023

Dardos Technology | Amman

Delivered user-centered full-stack solutions with a focus on usability, performance, and cross-functional collaboration.

- Created engaging, responsive designs using HTML, CSS, and JavaScript.
- Developed server-side logic using PHP and wordpress websites.
- Collaborated with design teams to transform mockups into working applications.
