Amman, Jordan

Senior Full Stack Developer with expertise in C#, .NET, Angular, and SQL Server. I design and deliver secure, high-performance web applications, bridging front-end and back-end development, optimizing systems, and leading teams to achieve scalable, maintainable solutions.

Work Experience

Senior Full Stack Developer   Jan 2026 - Present

Pixel Professional Solutions | Amman

Spearhead end-to-end development of scalable web applications, driving architectural decisions and ensuring high-performance, maintainable solutions. Lead and mentor teams while collaborating with clients to translate business needs into technical solutions.

- Directed cross-functional development teams, overseeing task planning, code reviews, and delivery ownership.
- Designed and implemented front-end and back-end systems using .NET and Angular, optimizing performance and maintainability.
- Contributed to system architecture, established best practices, and ensured long-term scalability.
- Collaborated with clients to define requirements, deliver solutions, and manage expectations.
- Oversaw deployments, troubleshooting, and continuous system improvements.

Full Stack Developer   Oct 2023 – Jan 2026

Pixel Professional Solutions | Amman

Built and maintained full-stack applications, collaborating with teams to deliver robust, high-performance software solutions. Provided technical support and trained interns in development best practices.

- Developed responsive front-end architectures and efficient back-end logic, improving application performance.
- Administered servers, email systems, and hosting platforms to ensure operational reliability.
- Provided technical mentorship and created monthly reports to track performance improvements.
- Assisted in implementing CI/CD pipelines and optimized deployment processes.

Web Developer   Apr 2023 - Oct 2023

Tecno Tech | Amman

Designed and maintained modern web applications with a focus on performance, usability, and responsiveness.

- Built fully functional websites with optimized front-end and back-end solutions.
- Improved application efficiency through performance tuning and code optimization.
- Updated and enhanced existing web applications based on user feedback and analytics.

Full-Stack Web Developer   Nov 2022 - Mar 2023

Dardos Technology | Amman

Delivered user-centered full-stack web solutions, emphasizing usability, cross-functional collaboration, and performance.

- Developed responsive front-end designs using HTML, CSS, and JavaScript.
- Implemented server-side logic for PHP and WordPress websites.
- Translated design mockups into fully functional web applications.
